You Are Invited . . .

YOU are always welcome to visit FLORISTAN GARDENS. The prettiest times of the year, of course, are in the spring and the fall. But a gardener finds much of interest at any season. If you have problems in dividing your clumps, the storage, or the growing, please feel free to come out. We'll do our best to help you. And, whether you are a visitor from afar or one of our own community, you are always welcome to walk through the fields at flower time. There is no obligation to order bulbs or roots. Simply enjoy the beauty of the flowers.

Floristan Gardens BEAUTIFUL PEDIGREED DAHLIAS

SINCE space in this list is limited, we have not endlessly repeated descriptions of the good qualities that each of our dahlias share. EVERY FLORISTAN GARDENS PEDIGREED DAHLIA here has a long, strong vital stem. Each bloom has good facing habits. Each dahlia is healthy, disease free and disease-resistant. All conform to the finest of dahlia standards. We have more varieties than we catalog. If you have an old favorite not noted here, please ask us for it. We may have it. AND—please note! Many of our PRICES ARE LOWER than last year's. In most, they are no higher. This is because this new land produced a wonderful crop and because, in our new location, we enjoy a more efficient and less costly operation.

BEGINNER'S COLLECTION

If you are more interested in colorful blooms and plenty of them rather than in growing named varieties, we recommend these collections. You can depend on the dahlias included. They are our very good varieties but are from extra and odd lots and we save time by not naming them for you. No two alike.
